BIM

EXPANSIVE LEARNING WITH PARTICULAR EMPHASIS ON THE INTERPLAY OF BUSINESS MANAGEMENT AND INFORMATION SYSTEMS

The Bachelor of Information Management (BIM) seamlessly combines the strategic realms of information technology and management. This program imparts extensive knowledge and nurtures technological skills, granting students a unique edge in the IT domain. It molds the upcoming generation, empowering them to harness opportunities in the digital landscape amid a swiftly changing business environment, fostering inventive solutions that benefit society. Graduates are equipped with the capability to skillfully correlate IT and management concepts or tools with managerial skills, enabling effective support for business analysis and operations.

Key Learning Outcomes

- Acquire a profound comprehension, expertise, and proficiency in information systems, information technology, and management, and employ them in a practical manner.

- Utilize computers and computational techniques to create efficient information systems, addressing real-life challenges within the organizational context.

- Create methodologies for object-oriented software design, implement data management systems, and utilize web technology and programming to fulfill the requirements of industrial and commercial sectors.

- Gain proficiency in systems analysis tools and methodologies, along with organizational and managerial skills, to effectively implement IT for achieving business success.

- Develop critical thinking and a well-rounded perspective on IT and Management, preparing to enter the IT business profession equipped with the expected knowledge.

- BA in Information Management and Systems, **University Of South Carolina-Union, USA**

- **Bachelor In Information Management (BIM), Tribhuvan University, Nepal**

AN ADDITIONAL ADVANTAGE B.I.M

First Semester

- Cloud Computing and Office 365.
- System Virtualizations.
- Computer Hardware Assembly and OS Installation.

Second Semester

- Wireless Data/Power Transfer System.
- Core Automation System-I- Embedded C.
- Seminars -Cyber Laws (National and International).

Third Semester

- C. Panel -Web Server.
- Advance Automation System -II.
- Seminars - Embedded Systems.

Fourth Semester

- Advance C. Panel -Web Server.
- CMS System - Word Press/Drupal /Joomla *.
- Seminars - Linux Kernel.

.

Fifth Semester

- Windows Servers MSCA.
- Advance Automation System -III.
- Seminars - Machine Learning and Data Science.

Sixth Semester

- CCNA-Network Administrator.
- Technical Research.
- Advance Automation System -IV.
- Digital Marketing.

Seventh Semester

- Soft Skills and Personality Development.
- React JS.
- Angular JS.
- ERP-Vision

Seventh Semester

- IoT-Home and Industrials.
- Android Developments.
- IOS Developments
